This man here is the love of my life, my soulmate, my best friend and my Valentine. We almost lost Don last Wednesday night into Thursday morning. His heartrate dropped to 25 (life-threatening low). They did not know what had caused it at Logan. The doctors and nurses worked tirelessly for 6 hours to get Don stable enough to be transferred to a hospital who could put in a temporary pacemaker. All the hospitals were full and St. Mary's finally agreed to take him. Once he got here by ambulance the cardiologist put in an external pacemaker and ordered lots of lab tests to find out what was causing his heartrate to be so low. They knew the answer as soon as the labs came back Thursday morning. He was in dangerous septic shock that was affecting his heart and it was also causing his sugar to be over 600. They started him on a heavy insulin drip and many bags of heavy duty iv antibiotics. By Friday morning his WBCs and sugar numbers had dropped and they were able to see that his heart was starting to control the heartrate without help of a pacemaker. Fast forward to today, the cardiologist removed the external pacemaker and says he will be transferred to Cardiac Stepdown room and will be able to go home in about 24 hours or so!!!! There is absolutely no way to explain it, but that GOD was definitely watching out for Don. He has had the BEST Doctors and nurses here at St. Mary's. I mean THEY ARE THE BEST!!! Thank you for all your prayers. We both appreciate them. OUR GOD IS AN AWESOME GOD!!! ❤️

Hail to the Queens of the class of 86. Life is too short so we chose to celebrate while we still can. I truly enjoyed these Queens and I'm looking forward to the next gathering. Love you all and the memories we made. Our host was the bomb. Thanks Gloria Woods for all of your hard work. The first of many gatherings to come. #hiclassof86
